

K-LOVE radio is a very important part of mine and others of my community's daily lifestyle. The output of this wonderful radio station is detrimental to our community's health and awareness of Christian related news and spiritual growth. It is my belief that the public needs this type of positive and encouraging broadcast for the benefit of ourselves, our children, and all that will be uplifted through their wonderful messages in a medium that reaches so many people. Please don't allow LPFM broadcasters to replace something so important to so many people. Thank you. God bless.
